EDUCATION

Bachelor of Science in Computer Science (BSCS)

Virtual University, Rawalpindi, Currently pursuing

RECENT PROJECTS ---

TEVTA - INSTITUTE - API DEVELOPMENT

In this project, I spearheaded the development of an API for the (TEVTA) Institute. The objective was to create a robust and scalable interface to facilitate seamless communication between different modules within the institute's system.

AJK GENDER MANAGEMENT SYSTEM - GOV PROJECT - WEBSITE CREATION

I played a key role in the development of the AJK Gender Management System, a significant government project. The primary focus was on creating a dynamic and user-friendly website to streamline gender-related data management in the Azad Jammu and Kashmir region.

SPECIAL COMMUNICATIONS ORGANIZATION (SCO) - DESKTOP APPLICATION

Developed a robust desktop software solution for the (SCO) in Azad Kashmir.

RHYTHM VISION - ECOMMERCE WEBSITE - REACT JS

Developed the Rhythm Vision e-commerce platform using React JS for the frontend and Node.js for the backend, creating a seamless and immersive online shopping experience for customers. Implemented intuitive navigation, secure payment gateways, and dynamic product showcasing to enhance user engagement and facilitate efficient transactions.
